📍 461 Sorrento Drive, Centerton, Arkansas. 72719

I am a committed, hard-working individual seeking to help others reach their potential. I desire a creative and collaborative workspace.

Relevant Experience

Wise Software

August 2021 - September 2021

- Develop and present an accessible, clean application prototype for the serviced users of the company's customers.
- Use constructive feedback to customise the prototype to Wise Software's liking.

Freelancing

November 2020 - Current

- Develop front-ends for client's needs.
- Create and recommend UI styles, while creating own ideas for professional portfolios.

Projects

PATHOS-II Terminal

June 2021

A clone of a terminal UI from Frictional Games' SOMA. Showcases CSS 9-slicing techniques.

Musical Minesweeper

July 2021

A clone of Minesweeper with a musical twist. Numbers are replaced with musical notes. The longer the note is, the more mines that are nearby.

Chromebook Login Screen Clone

September 2021

A simple copy of the ChromeOS log in screen, with neat little details such as button ripples.

Skills

Programming Languages

Typescript, Javascript, Lua, C#, Python, ASM x64

Markup & Web Dev
